**Fee: \$50 per student \*Scholarships available for those in want or need.**

## WHAT IS CAREER CAMP 2024?

Has anyone ever asked you what you would like to be when you grow up? Have you ever wondered what kind of job or career you will have after you graduate from High School? This fun hands on camp is designed to give you career related experiences that will help you make a more informed decision!

*Career Camp is an equal opportunity program.*

## REGISTRATION

Some programs have limited seating, more information is available on the online registration form for the amount of seats for each camp. Registration is accepted on a first come first serve basis.

Safety Reminder: Flip Flops and sandals are not permitted. Closed toe shoes required for all participants! Long pants are required for Welding, Precision Machining, and Diesel/Auto Tech and hard toed shoes are recommended.

**Registration Deadline is Monday June 3<sup>rd</sup>, 2024**

# CAMP A

*“KEEPING MY OPTIONS OPEN”*

## 1 DAY CAMPS – CAMPERS CHOOSE 3 PROGRAMS TO ATTEND

*For students that would like to try a few career options there is a rotating camp that offers different one day camps including:*

- 1. Carpentry** – Join us for an exciting week filled with sawdust, creativity, and the thrill of building something with your own two hands. Our camp is designed for curious minds who love to tinker, create, and explore the world of woodworking.
- 2. Cosmetology** – Get ready to dive into a world of color, creativity, and fabulous transformations at our Cosmetology camp. Learn how to give a spa manicure, braiding skills, and design nails in this fun hands-on camp!
- 3. Culinary Arts** – If you've ever dreamed of donning a chef's hat, whipping up delicious dishes, and exploring the tantalizing world of flavors, then you're in for a treat at our Culinary Day Camp. This camp provides students with a 'taste' of our 3-year program in Culinary Arts.
- 4. Electrical Occupations** – Get ready to spark your interest in the world of electricity! In this immersive experience, you'll dive into the basics of electrical circuits, wiring, and safety protocols. Through hands-on projects and interactive sessions, you'll learn valuable skills that could ignite a passion for a future career as an electrician or engineer. Don't miss out on this electrifying opportunity to explore the power of electricity and illuminate your path forward!
- 5. Health Careers** – Calling all future doctors, nurses, and healthcare superheroes-in-training! Are you ready to embark on an exciting journey into the world of medicine and wellness? Join us for a thrilling day at our Health Careers Day Camp, where you'll discover the magic of healing and the thrill of saving lives!
- 6. Sports Medicine** – Sports medicine is the MVP of the healthcare world! It's like a coach for your body, helping athletes sprint past injuries and stay in tip-top shape. Whether you're a weekend warrior or a pro player, sports medicine has your back (and knees, and shoulders)!
- 7. Veterinary Sciences** – Are you ready to embark on an exciting journey into the world of veterinary medicine? Join us for a day of furry friends, hands-on learning, and unforgettable adventures in our Veterinary Sciences camp!
- 8. Welding** – Basic intro into the three main types of welding mild steel, GMAW, SMAW, and GTAW. Students will also learn how to cut mild steel using Oxy-fuel cutting and Plasma cutting processes. Safety is key in this hands-on program, so proper safety clothing is required (jeans and boots).
- 9. Emergency Protective Services** – Identifying the different careers in the emergency and protective services fields. There will be some basic demonstrations. Students will get a basic hands-on experience in First Aid & CPR/AED.

## CAMP B

*“IDENTIFYING MY INTERESTS”*

### 3 DAY CAMPS – CAMPERS WILL CHOOSE 1 CAMP FOR 3 DAYS

- 1. Pre-Engineering**– Students will explore the career of Pre-Engineering with a day in each of 3 programs: Drafting & Design Technology, Electronics Technology, and Precision Machining.
  - Drafting & Design** – students will use a variety of drafting tools to create a simple single view drawings. Venture into more advanced drawing, then experience a demonstration of 3D modeling with parts in motion on the computer.
  - Electronics Technology** – An exciting opportunity to build a take away project while experiencing what it might be like to be an electronics engineer or technician in this ever expanding technical world.
  - Precision Machining** – In this hands-on experience, students will use precision tools and CNC-controlled equipment, as well as learning to interpret simple blueprints; to create something they can keep.
- 2. Automotive & Diesel Technology**– Have you ever thought of what makes an engine run? This combined camp offers insight into engine technology and the service and maintenance of automotive, agricultural, trucking, and recreational vehicles. These hands-on activities will help you decide if this is a potential career path for you.
- 3. Drafting and Design Technology** – In this 3-day Drafting Camp, students will spend the week gaining a more in-depth understanding of the Drafting world. By using a variety of drafting tools to create simple single-view drawings. Venture into more advanced drawings, then experience a demonstration of 3D modeling with parts in motion on the computer.
- 4. Welding** – Basic intro into the three main types of welding mild steel, GMAW, SMAW, and GTAW. Students will also learn how to cut mild steel using Oxy-fuel cutting and Plasma cutting processes. Safety is key in this hands-on program, so proper safety clothing is required (jeans and boots).
