

July 23, 2020

Dear Electronics Student & Parents/Guardians:

I would like to take this opportunity to welcome you to the Electronics Technology class at the Crawford County Career & Technical Center. The start of school will soon be upon us and I want to assure you that everything is in readiness for your success in Electronics.

There are a few items that you should bring with you when you come to class. These items include a 3" three ring binder with 15 chapter dividers, three-hole-lined notepaper, pencils, fine tipped markers or pencils in various colors, and a scientific calculator. The calculator should be able to perform scientific notation, exponents, and trigonometry functions. I personally use the Texas Instruments TI-83 Plus and TI-84, however the TI-30XIIS works well also. Acquiring these items will help prepare you for class and will make your classroom experience an even more positive one.

If you have any questions about the additional items that you will need or anything else concerning our class, please do not hesitate to contact me at the Career Center at (814) 724-6024, extension 214. You may also email me at the school at rkightlinger@crowfordctc.org. I will be back in the classroom three days before the start of the school year.

I am excited for the beginning of the new academic year and look forward to seeing you on September 2, 2020!

Sincerely,

Mr. Kightlinger,
Electronics Instructor
